

TWO HURLED FROM TROLLEY IN WILD DASH DOWN HILL

Dozen Others Hurt Before Jersey Car Was Stopped.

ROSELIE N. J., Oct. 25.—Two persons were severely injured and a number of others bruised and shocked when a trolley car on the main line running between Elizabeth and Plainfield dashed wild down a hill here last midnight.

Had it not been for the prompt action of Conductor Thomas McGuire it is probable the car would have been dashed off the tracks and the hill, and the trolley would have been more and Ohio tracks. As it was, the wild car was stopped about twenty feet from the trestle.

The trolley left Elizabeth at 11:20 p.m. and was descending the hill when it was stopped. The car was carrying about fifteen still aboard. Conductor McGuire noticed there were a number of shovels on the track ahead but as the car was descending a steep hill he was unable to slow it in time to avoid hitting them, so he took his switch iron and tried to clear the rails.

O'Brien was so busy with his task that he did not notice the car was gaining speed until a sharp turn was made at about the middle of the steep hill, and the motorman was pitched off the front of the car, which rounded the turn without leaving the rails and the trolley on.

Conductor McGuire on the rear platform and did not know that anything was wrong until the car was around the curve. He ran to the front end of the car to find that the motorman was not there. He applied the sand brakes and reversed the power, and after a hard struggle with the brakes, managed to stop the car only a short distance from the trestle which spans the tracks of the B. & O. road.

The trolley which threw the motorman off also knocked E. W. Haddon, of this place, from the rear platform and the other passengers were hurled from their seats.

Haddon was picked up half-conscious with one of his arms broken in two places, while the motorman was found by the roadside with his head gashed and body badly bruised.

E. R. Christie, of Newark, a passenger, was hurled from his seat and received a severe injury to his spine. Other passengers received cuts and bruises and were badly shaken. The more serious injuries were attended by doctors and taken home.

Teamsters on Strike.

Twelve teamsters in the employ of J. W. Greene, a Jersey City furniture dealer, struck yesterday for more pay and shorter hours. Men were put in their places and as trouble was feared a policeman took a seat by the side of the driver on each wagon.

ROBBED ON A CAR OF GEMS WORTH \$3,000

The robbery took place yesterday afternoon.

'MAMSELLE' IN NEW GARB AT BERKELEY

Daring Playlet Based on Thaw Tragedy Precedes Brightened Roof Show.

"Mamselle Champagne," the show that ran through the summer season on Madison Square Garden Roof, was revived last night at the Berkeley Theatre, the cozy little playhouse in Forty-fourth street near Fifth avenue. Owing to the dereliction of electricians, decorators and other artisans upon whom a manager is forced to depend so largely for the thoroughness of an opening, George Blumenthal and the L. E. Lawrence Company, who are responsible for the venture, were handicapped, but the audience that packed the little house enjoyed itself from start to finish.

It is a new and brighter "Mamselle Champagne" that is shown at the Berkeley. Much of the talk has been cut out, new songs have been interpolated and new comedy takes the place of the lines that pleased roof garden patrons.

The star of the piece is May Yohé. She is surprisingly young and vivacious and she has those old deep notes, but she suffered from a cold last night and did not do herself justice. Isabel D'Armond, a soprano new to Broadway, made a hit in the character of Mabel Chatterton, which was played on the roof by Maud Fulton, and Mrs. Hattie E. Martin as Daisy Hicks made everybody sit up and take notice.

"Mamselle Champagne" was preceded by a daring little playlet, entitled "The Day Before." It is obviously intended as a reminder of the killing of Stanley White by Harry Thaw on Madison Square Garden Roof. The night the show opened there last summer.

The three characters, Stanley Carlton, Jack Houghton and Helen Houghton, were recognized by the audience as representing Thaw, White and Evelyn Nesbit Thaw. The scene of the playlet is laid in the apartments of Houghton, and those who believe that Thaw was justified in shooting White will find plenty of encouragement in the short performance.

DRANK POISON FOR GIN.

George Towle, of the bartending gang in the Pennsylvania Railroad tunnel in Long Island City, found today in the claspings what he thought was a bottle of gin. He took a drink of it and was immediately seized with severe pains and was sent to St. John's Hospital, where it was said he would probably die.

The bottle contained a solution of soda in carbolic acid, which is used in the manufacture of a gas to operate a machine that opens and closes the airlocks of the tunnel. Towle lives at No. 324 West Twenty-fourth street, Manhattan.

BOY OF FOUR, LOST, LIKES IT THUS FAR

Gets Breakfast of His Life with Children's Society and Is Content.

Policeman Pat Donnelly, patrolling his beat in the outer edges of the Adams Street Precinct in Brooklyn, stumbled over a little warm wad of clothes or something as he tried the latch in a doorway at Bond and Livingston streets. Donnelly unlocked the mystery and invited a little, soot-faced, sleepy-eyed boy who remarked that he was "John Tierney, four years old, going on five," and then went right back to sleep in the policeman's arms. Donnelly shook him up until he was sufficiently awake to impart further information.

"He home is in Baltic street," he said drowsily. "I don't know de number. Dev was some other kids play last night and I followed 'em often in back. We went a long ways and den they turned off and let me. I walked and walked and after while I got sleepy and tired and went to sleep. Gee it must be late."

It was late or early, depending on which way you figured it. It was a quarter past three o'clock this morning. Donnelly took the self-possessed

J. P. MORGAN HAS BIBLE KING WANTED

Paid \$4,000 Duty on Work and Bunyan's Warrant to Secure Them.

J. Pierpont Morgan has in his possession the magnificent illuminated Bible done by the monks of Cluny in the thirteenth century, for which King Edward hid against him. Mr. Morgan having last evening paid \$4,000 duty to the Treasury Department on the book, which, with the original warrant for recovery, came with it, is worth \$25,000.

The Bible and warrant are examples of the best specimens of the patient labor of the early monks extant. Foreign Treasury agents valued it at the sum named and Mr. Morgan paid the duty without protest.

King Edward wanted the Bible to place in the Victoria Memorial at Frogmore, where the late Queen is interred, but Mr. Morgan outbid him and secured it. He has not said from whom it was purchased. Treasury officials were somewhat surprised when the \$4,000 duty was paid without a word, for Mr. Morgan has often refused to accept the valuations placed by the Government on works of art which he has imported, and in some cases he has had valuing boards uphold him in his contention.

R. H. Macy & Co.'s Attractions Are Their Low Price

Macy's

B'way at 6th Av. 34th to 35th St.

How You Can Have a CHARGE ACCOUNT in a Strictly CASH STORE and at the same time Enjoy the ECONOMIES of a Strictly Cash Store System

The R. H. Macy & Co. store business is founded upon a STRICTLY CASH BASIS. The richest man in the world cannot buy goods here on credit—not that we doubt his ability to pay for the goods, but because WE MAKE NO DISTINCTIONS—we treat alike the million and the millionaire. Rigid adherence to that rule gives this Macy store ABSOLUTE UNDERSELLING SUPREMACY.

Admitting the conveniences afforded by the ordinary "charge" account systems in credit stores, we inaugurated our famous

Depositors' Account System.

This gives the Macy patron ALL THE CONVENIENCES of a "charge" account—in a credit store WITHOUT THE MANY FAULTS OF SUCH AN ACCOUNT, and ALL THE ECONOMIES OF OUR STRICTLY CASH SYSTEM. In addition, on daily balances we allow 4% INTEREST, COMPOUNDED every three months.

A patron merely deposits here any sum of money that suits his or her convenience. Purchases may be made in the usual way and "charged" in the usual way—to the sum on deposit. Statements are mailed monthly.

While a deposit cannot be checked against for expenditures made outside of the store—AS WE DO NO BANKING BUSINESS—any or ALL of it can be withdrawn at any time.

Unshrinkable Underwear.

FOR men and children—"Pescot" Undergarments, made by Peter Scott & Co., of Scotland. A chemist member of the Scott firm discovered the process by which the garments are made unshrinkable. "Pescot," broadly guaranteed, is sold in the best shops abroad.

Three years ago we secured American control of this line. It may be had in pure wool or silk-and-wool. In addition to being unshrinkable, "Pescot" is the only woollen wear we know of that can be had in snow white, all others having a more or less yellowish cast.

We have limited quantities of Women's "Pescot" Underwear—for women who do not object to so-called "flat" undergarments. But the majority of women are interested in our

Reasons for this remarkable growth are apparent to every man who inspects the stocks.

We supply not only everything in the line of ready-to-wear apparel, but made-to-order apparel as well—everything from a tie or a pair of pajamas to a full dress suit. And above all, there is this fact for consideration:
